Note from the Owner

Hello, my name is Monica; I truly appreciate your interest in Big Island Beauty Academy!

I arrived In Hawaii 5 years ago, and since my arrival I just could not believe the Big Island did not have a Beauty school! Hairdressing has been very rewarding and lucrative career for me for over 25 years and I have been inspired for years in every aspect of this exciting industry! I was saddened that the opportunity was lacking for the people of our community here on the Big Island.

Upon arriving to the Island, my first goal was to provide for myself, so I opened my own Salon called Monimay Salon. However, I told myself 5 years ago that I would one day open a school here, and I cannot believe the day is finally here!

Throughout my career, I have worked for some amazing salons which provided me the opportunity to travel, teach, and perform on stage. I have won national recognition for my work as a Color Specialist, as well as many local awards in Arizona. I am looking forward to being able to share my years of experience and my passion with you and I am looking forward to finding new inspiration from you my students as well!

*Monica M. May
Director of Education*

Curriculum

At Big Island Beauty Academy, we are proud to use the Milady's curriculum. Milady's is the leader in the industry and has been around since the 1920's. They update their curriculum regularly to stay abreast of the most current trends in the industry.

Milady's also provides interactive learning for students, as well as continued training courses and webinars for educators. At Big Island Beauty Academy, we are committed to provide these courses for our teaching team semi-annually to keep them inspired and current.

To ensure continued career success, graduates are encouraged to learn new and current information related to the skills, trends, and methods for career development in cosmetology and related fields.

It is our commitment that each graduate from Big Island Beauty Academy has the skills and confidence to immediately join the workplace in. As with any profession, it is more important than ever for individuals to take charge of their careers by investing time and energy into sharpening their professional skills with continuing education, to keep up with current products and trends.

Teaching and Learning Methods

The clock hour education is provided through a sequential set of learning steps which address specific tasks necessary for state board preparation, graduation, and job entry level skills. All clinic equipment, implements, and products are comparable to those used in the industry. Each student will receive instruction that relates to the performance of useful, creative, and productive career-oriented activities.

The course is presented through comprehensive lesson plans which reflect effective educational methods. Subjects are presented by means of interactive lecture, demonstration, cooperative learning, labs, student salon activities, and student participation. Audio-visual aids, guest speakers, field trips, projects, activities, and other related learning methods are used in the course.

Grading Procedures

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences.

Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rates as satisfactory or better (the computer system will reflect completion of the practical assignment as a 100% rating). If the performance does not meet satisfactory requirements, it is not counted, and the performance must be repeated.

At least two comprehensive practical skills evaluations will be conducted over the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school.

Students must maintain a written grade average of 70% and pass a FINAL written and practical exam prior to graduation. Students must make up failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale:

90 -100% EXCELLENT

80 – 89% VERY GOOD

74 – 79% SATISFACTORY

74% and BELOW UNSATISFACTORY
