A practitioner's tasks may vary greatly depending on his or her specialty. Being flexible and a good listener are essential to succeeding in these fields of practice and it is important to be able to work with different personalities, whether it is in a salon or with private clients.

Practitioners in these fields not only complete the services on clients but also do consultations on what they think is best for a client's skin, hair, nails, bodies, etc. It is important for practitioners to keep up with current trends within the industry so as to better serve their clients.

- Practitioners are in constant contact with various products and sometimes use harsh chemicals. It is important for a professional in these fields to maintain safe working practice including the utilization of protective clothing and proper knowledge of product/chemical handling.

HAWAII COSMETOLOGY PROFESSIONAL LICENSURE REQUIREMENTS

The Hawaii Board of Barbering and Cosmetology defines the scope of services that a practitioner can perform, based on the fields of practice for which they are certified. Hawaii issues a "segmented license," or in other words, a separate certificate for Hair Dressing, Nail Technology, Esthetics, Cosmetology, and Beauty Instructor. Big Island Beauty Academy's curriculum is approved by the DCCA and is designed to prepare students to pass exams and work in their chosen occupation. The program of study for cosmetology licenses require the successful completion of technical education using a state approved curriculum that includes training in Hair Dressing, Esthetics, Nail Technology, Cosmetology and Beauty Instructor Training. Hawaii law allows students to study one or more of the fields of practice as prescribed in the Hawaii cosmetology license requirements. In addition to the specific discipline requirements, students must complete the Theory and Shop Management programs, including a section covering Hawaii Cosmetology laws and rules. Upon completion of the desired training, a graduate will be eligible to apply to take the licensing examinations for the respective areas of practice. A professional license, in the relevant discipline, will be issued once a graduate has successfully passed the state exam(s).

Admission to the school will depend on adequate comprehension and understanding of English. If the school has reservations regarding the applicant's ability to complete a program taught in English, the school may request the applicant pass an internal English language assessment administered on line - <http://www.esl-languages.com/en/study-abroad/adults/online-tests/index.htm>.

If the student does not pass the test, the applicant may complete ESL (English as a Second Language) classes before applicant is accepted for admission.

It is advisable to apply for enrollment and pay the registration fee as soon as possible to ensure a place in class. Student payment schedules must be arranged with the financial office prior to beginning classes.

In the event of a payment default, the school will, without notice, suspend the student until the account is brought to the proper status.

Re-entry Students

- If a student has been terminated or withdrawals from a program and wishes to re-enter the school, they must submit a written request to re-enroll. Big Island Beauty Academy also requires a personal interview with school administration. Once the petition is reviewed, the Director has 30 days to notify the student about the decision on allowing the student to re-enroll and any stipulations to be followed. The re-entering student will be placed on a 30-day probation period. During the 30-day probation period the student must demonstrate for that period that they can meet the school's minimum attendance and academic requirements for satisfactory academic progress.

The student will then be evaluated for satisfactory academic progress at the next scheduled evaluation period to determine their new status. Students who fail to meet the minimum attendance and academic requirements for that 30-day evaluation period may be terminated. Students who re-enter the program are placed in the same Satisfactory Academic Progress standing as when they left. Other requirements are:

- Outstanding tuition, fees, and overtime expenses must be paid in advance.
- Previous tuition payments will be credited to the student's balance
- Because tuition fees and costs are subject to change, re-entering students will be contracted according to the current tuition costs and will be required to pay any additional fees, if applicable.
- Pay a \$150 re-entry fee

Re-admission is reserved to the sole discretion of Big Island Beauty Academy and may require special conditions.

Credit for Prior Training

- Students with prior training who would like to transfer enrollment credits must first comply with all of the regular admission requirements.
- Students with credits from an out-of-state or another Hawaii based school must submit a written request to their former school for an official transcript. It is to be mailed or faxed directly to Big Island Beauty Academy from the previous school. Transcripts from previous schools must be free of all financial obligations. Upon receipt and evaluation of official transcripts from school previously attended, the student may be awarded hours as detailed in the transcript. Big Island Beauty Academy will evaluate and determine how many hours will be eligible for transfer. Transfer hours accepted will reduce the amount of time and hours required to complete the course of enrollment, and will reduce the amount of tuition. The remaining hours to complete the course of enrollment will be pro-rated according to the tuition cost of the program. Books and kit charges,

if applicable, are additional expenses. The transfer student will be assessed on both academic and technical to determine placement. Students with transfer hours from another institution will have those hours counted as both attempted and completed hours toward the student's education.

- Former students of Big Island Beauty Academy who did not complete their training may re-enter provided they have paid any outstanding debt owed and come to an agreement with the School for the cost of the remaining training. A competency test will be given to assess the appropriate level the student may enter. The test will be a practical exam and will include safety and sanitation protocols. The results of the testing will allow the school to create a program of study to complete only areas that are not up to the standards of the school and the State of Hawaii.

Tuition Fee for Transfer Students

- The hourly tuition charges for transfer or re-enrolled students who have prior hours are charged the current hourly rate per course.

Tuition Fee for Additional Training

- This is a great option for students who are able to pay for their tuition without applying for a loan. This is an in-house plan in which Big Island Beauty Academy carries the cost over the course of instruction. Students make an initial payment for the first month (application fee, registration fee, kits, books and a portion of the tuition) and then maintain a monthly tuition payment. The balance due must be paid by the students expected graduation date.

Interest Bearing Payment Plan

- 10% interest for up to 2 years depending on the course

School Records and Transcripts

The Family Educational Rights and Privacy Act of 1974 (FERPA) is a Federal law designed to protect the privacy of a student's education records.

- The FERPA gives certain rights to parents regarding their children's education records. These rights transfer to the student or former student who has reached the age of 18 or is attending any school beyond the high school level. Students and former students to whom the rights have transferred are called eligible students. Parents or eligible students have the right to inspect and review all of the student's educational records maintained by the school. Parents or eligible students must send a written request to the school and identify the records requested. The school will notify the parents or eligible students about the date and time the records will be available. This will be done within 45 days of the receipt of the request. Original records cannot leave the office and the school is not required to provide copies of materials in education records.
- Generally, the school must have written permission from the parent or eligible student before releasing any information from a student's records; the school has release forms available should a parent or eligible student wish to release information to a third party. The law allows schools to disclose records without consent to the following parties:
 - School employees who have a need to know
 - Other schools to which a student is transferring
 - Parents when a student over 18 is still dependent
 - Certain government officials in order to carry out lawful functions
 - Appropriate parties in connection with financial aid to a student
 - Accrediting organizations
 - Individuals who have obtained court orders or subpoenas

- Persons who need to know in cases of health and safety emergencies
 - State and local authorities to whom disclosure is required by state laws adopted before November 19, 1974
- Students may request to review their files at any time during enrollment. An appointment must be made with the admissions office to review the files in their presence. Files cannot leave the office.
 - Copies of transcripts may be requested from the administration of Big Island Beauty Academy in writing. Big Island Beauty Academy can, at its discretion, withhold transcripts until any outstanding tuition or fees (tuition, fees or penalties) are brought current. Note: There may be a minimum of a 10-business day processing period before Big Island Beauty Academy is able to forward the transcript. Students shall be entitled to one free transcript, however, there will be a \$15 processing fee for any subsequent requests.

Privacy and File Access Policy

- The Privacy Act of 1974 prohibits the release of privileged and confidential information concerning individual students unless authorization is received by the student and/or guardian (if the student is a dependent minor) for each third-party request. The school form may be used for this purpose. It is the school's policy that no information is released without written authorization by the student. Please note that a completed written release form is required for each occurrence of release of information. The school will release information to any federal, state or local official, auditor, or accrediting body having the authority to request such information. Upon request a student will be scheduled time to review or give permission to an outside individual to review his/her student records. These records may include academic, financial aid and advisement records. A student may not review income and asset information on parents in the file without written consent of the parent(s). Cumulative education records are maintained for each student for a minimum of three years after graduation or termination.

SCHOOL POLICIES

Job Placement

- There are several ways in which the school can assist with job placement. First, there are courses designed to prepare candidates with searching techniques, resume drafting and interviewing techniques. In addition, the school assists with a list of contacts as well as a job posting board. Finally, students should try to schedule an appointment with the Director of Education in order to assess which salons may best suit that student's character.
- Our Job Shadow Program allows senior students to spend a day in an actual salon watching and observing the various duties of the salon and also allows prospective employers to look at potential job applicants. Contacts established here will put students ahead of other new licensed graduates when it comes to securing that first job opportunity.
- Please keep in mind that the school will do all that it can to place a student, however, there is no school that can guarantee employment.
- Should students have questions or needs of non-academic nature, the school provides a listing of professional resources in the community. A posting of this information can be located in the student lounge.

Grading

- The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences.
- Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rates as satisfactory or better (the computer system will reflect completion of the practical assignment as a 100% rating). If the performance does not meet satisfactory requirements, it is not counted, and the performance must be repeated.
- At least two comprehensive practical skills evaluations will be conducted over the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school.

- Students must maintain, at a minimum, a written grade average of 75% and pass FINAL written and practical exams prior to graduation. Students must make-up failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale.

90-100% - Excellent

80-89% - Very Good

75-79% - Satisfactory

74% and Below – Unsatisfactory/Fail

- Students will be taking tests at the end of each week. If a student should miss a test or didn't reach the 75% passing grade, a make-up test will be required. To make up a test missed, the student must schedule with the instructor within a week of the missing test. Students take tests as they move through the program, but shouldn't expect to be removed from client bookings at the end of the program due to failure to make up work on the requested schedule.
- Big Island Beauty Academy will provide a Certificate of Completion and an Official Transcript of hours for the applicable course when the student has successfully completed all phases of study which include all required tests; practical assignments; and have passed a final comprehensive written and practical examination; completed the program of study per State requirements; completed all exit paperwork; attended an exit interview and made satisfactory arrangements for payment of all debts owed to the school.

Attendance and Discipline Policy

- Attendance is very important in any higher learning setting because it determines how quickly a student may proceed through their education. Course lengths are calculated on perfect attendance. Timely attendance is critical as staff, students and clients depend on it. Students must maintain satisfactory attendance in order to proceed through their program(s). The school expects attendance to be at a rate of no less than 75% on a monthly basis. This is the minimum percentage of time students must attend in order to remain in satisfactory progress. Keep in mind that to graduate on time, students must have 100% of attendance.
- Attendance requirements are determined by the program enrolled in. For a list of required hours broken out by program, see the section titled "Class Schedules - Program Outlines - Course Descriptions" of this catalog. Students are required to be present during all regularly scheduled hours.
- Students who are scheduled for Nine (9) hours will have a 30-minute lunch break. Anytime the student remains on the clock, they may be called to take appointments if needed.
- Students receive two, fifteen-minute breaks (morning & afternoon) which they sign out/in for at the front desk. Students are not to leave campus for these breaks and are not allowed to combine their two breaks into one 30-minute break.

Tardy Policy

- Students are required to arrive and clock-in prior to the schools 8:00am start time. Once the 8am morning meeting starts the front door is locked and students who are tardy must wait outside until the morning meeting is over.
- Students are not permitted to clock in or out for other students.

Absence Policy

- Students are required to notify the school in the event of an absence. Please refer to the Satisfactory Academic Progress section concerning absences.
- If the student knows of an anticipated absence from school, the student is asked to notify the school as soon as possible. Please note that there is no difference whether the absence is excused or unexcused for purposes of calculating a student's graduation date. However, if the student fills out a request, they will not receive a written warning as disciplinary action for missing the day
- A student is deemed to have dropped the program(s) after an absence of 14 consecutive calendar days without having made prior arrangements for a leave of absence with the school. Students are permitted to petition for re-enrollment based on the procedure outlined in this Student Catalog.
- Absences leading to necessary makeup time past the contracted "Max Time to Graduate" shall result in an extra charge of \$250 per week or prorated portion thereof.

Leave of Absence Policy

- In the event a student finds it necessary to be absent from school for an extended period of time, a minimum of 14 calendar days and a maximum of 90 calendar days, he/she may request a leave of absence (LOA) from the school. The request for a leave of absence shall be made prior to the leave at least 24 hours in advance, in writing, including the reason for the student's request, with the student's signature and delivered to the Director for approval, unless unforeseen circumstances prevent the student from doing so. The school may grant a LOA to a student who did not provide the request prior to the LOA due to unforeseen circumstances. Once the leave is approved, an addendum to the student's original contract must be completed and signed, which will extend the student's contract end date by the same number of days taken in the LOA. Students will not incur additional charges from the institution for any absences during an official leave of absence period; however, students are required to continue monthly minimum payments if applicable through the LOA. A student's leave of absence will not affect the student's attendance percentage rate. Student must return on the date he or she designate on the LOA for, or the contract will be terminated according to Federal Law. To authorize the LOA, the school must have a reasonable expectation that the student will return from the leave of absence.
- Students granted a LOA is not considered to have withdrawn, and no refund calculation is required at this time. However, students who fail to return to school as scheduled from an official leave will be considered as withdrawn as of the day they were scheduled to return to class. For the purpose of calculating a refund the withdrawal date will be the student's last day of attendance.

Make Up Work Policy

- The "make up work policy" affords student the opportunity to make up work and tests that they have missed. All make-up tests must be scheduled with an instructor within two weeks of its original date. It is the responsibility of the student to schedule the make-up test. Missed tests will be posted as a ZERO until the time that they are made up. Missed and failed tests will adversely affect the student's Grade Point Average (GPA) and SAP.

VIOLATION of POLICY & PROCEDURES

Written Warning

The school also may terminate a student's enrollment for noncompliance with their contract, or State Laws and Regulations, improper conduct or any action which causes or could cause bodily harm to a client, a student, or employee of the school: willful destruction of school property; and theft of any illegal act.
- A staff member shall explain the basis for the expulsion and the student shall confirm the same by signing off on the notification of expulsion. This notice shall notify the student of the student's right to appeal the expulsion. Thereafter a student's calculations for institutional earnings/refund shall be calculated. SCHOOL RULES & REGULATIONS

SATISFACTORY ACADEMIC PROGRESS POLICY

The Satisfactory Academic Progress (SAP) Policy is consistently applied to all students enrolled at the school. It is printed in the catalog to ensure that all students receive a copy prior to enrollment. The policy complies with the guidelines established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the federal regulations established by the United State Department of Education.

Attendance

- Students are required to attend a minimum of 75% of the hours possible based on the applicable attendance schedule in order to be considered maintaining SAP. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 75% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

Academic

- The qualitative element used to determine academic progress is a grading system detailed below. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better. If the performance does not meet satisfactory requirements, it is not counted and the performance must be repeated. At least two comprehensive practical skills evaluations will be conducted during the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade average of 75% and pass a FINAL written and practical exam prior to graduation. Students must make up failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale:

90% - 100%	Excellent
80% - 89%	Very Good
75% - 79%	Satisfactory
74% and Below	Unsatisfactory

Evaluation Periods: evaluations shall be based on actual hours

Cosmetology 1800 hrs.	Evaluations will be conducted at 450 hrs., 900 hrs. and 1350 hrs.
Hairdressing 1250 hrs.	Evaluations will be conducted at 450 hrs. and 900 hrs.
Esthetics 600 hrs.	Evaluations will be conducted at 300 hrs.
Nail Technology 350 hrs.	Evaluations will be conducted at 150 hrs.
Instructor Training 600 hrs.	Evaluations will be conducted at 300 hrs.

*Transfer Students - Midpoint of the contracted hrs. or the established evaluation periods, whichever comes first.

Evaluations will determine if the student has met the minimum requirements for SAP. The frequency of evaluations ensures that students have ample opportunity to meet both the attendance and academic progress requirements of at least one evaluation by midpoint in the course.

Determination of Progress

- Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making SAP until the next scheduled evaluation. Students will receive a hard copy of their SAP Determination at the time of each of the evaluations. Students deemed not maintaining SAP may have their Title IV Funding interrupted, unless the student is on warning or has prevailed upon appeal resulting in a status of probation.

Warning

- Students who fail to meet SAP will receive written warning of non-compliance and will be advised of the action that is required to meet SAP until the next scheduled SAP evaluation (“Warning Period”). The Warning Period lasts until the next scheduled evaluation. During that time the student will be required to meet the minimum requirements of SAP in order to avoid further prescriptive action on the part of the student. If at the end of the Warning Period a student has not yet met the SAP requirements, the student may be placed on probation. If the student is not able to meet SAP requirements at the expiration of probation, the school will determine whether there are any alternatives to expulsion, however, the school reserves the right to expel a student at this time in the event that there are no alternatives.

Probation

- Students who fail to meet minimum requirements for attendance or academic progress will be placed on probation and considered to be making SAP while during the probationary period if the student appeals the decision, and prevails upon appeal. Additionally, only students who have the ability to meet the SAP Policy standards by the end of the evaluation period may be placed on probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period. Students who are progressing according to the specific academic plan will be deemed to be SAP compliant and the student will be advised in writing of the actions required to attain SAP by the next evaluation. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for SAP or by the academic plan, he/she will be determined as NOT making SAP and, if applicable, students will not be deemed eligible to receive Title IV funds (Big Island Beauty Academy currently cannot accept Title IV funds) and or expelled from the school

Re-establishment of SAP

- Students may re-establish SAP and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of warning or probationary period.

Interruptions, Course Incompletes, and Withdrawals

- If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student’s contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student’s cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll will return in the SAP status as at the time of withdrawal.

Appeal Procedure

- If a student is determined to not be making SAP, the student may appeal the determination within ten calendar days. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or any other allowable special or mitigating circumstance. The student must submit a written appeal to the school on the designated form with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student’s situation that will allow them to

achieve SAP by the next evaluation point. Appeal documents will be reviewed and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If the student prevails upon appeal, the SAP determination will be reversed and federal financial aid will be reinstated, if applicable.

If permanently closed or no longer offering instruction after a student has enrolled, the school will provide a pro rata refund of tuition to the student OR provide course completion through a pre-arranged teach out agreement with another institution. If the course is canceled subsequent to a student's enrollment, the school will either provide a full refund of all monies paid or completion of the course at a later time. If the course is cancelled after students have enrolled and instruction has begun, the school shall provide a pro rata refund for all students transferring to another school based on the hours accepted by the receiving school OR provide completion of the course OR participate in a Teach-Out Agreement OR provide a full refund of all monies paid.

- Students who withdraw or terminate prior to course completion are charged a cancellation or administrative fee of \$150.00. This refund policy applies to tuition and fees charged in the enrollment agreement. Other miscellaneous charges the student may have incurred at the institution (i.e. extra kit materials, books, products, unreturned school property, etc.) will be calculated separately at the time of withdrawal. All fees are identified in the catalog and in this enrollment agreement.

GRIEVANCE AND APPEALS POLICY

Any student who feels that they have not been treated fairly shall submit a written complaint to the school director. The school will make every attempt to resolve any student complaint that is not frivolous or without merit. Evidence of final resolution of all complaints will be retained in school files in order to determine the frequency, nature and patterns of complaints for the institution.

The following outlines the specific steps of the complaint process:

1. The Student should register the complaint in writing on the designated form provided by the school within 60 days of the date that the act, which is the subject of the grievance, occurred.
2. The complaint form will be given to the school Director.
3. The complaint will be reviewed by management and a response will be sent in writing to the student within 30 days of receiving the complaint. The initial response may not provide for final resolution of the problem but will notify the student of continued investigation and /or actions being taken regarding the complaint.
4. If the complaint is of such nature that the management cannot resolve it, it will be referred to an appropriate agency if applicable.
5. Depending on the extent and nature of the complaint, interviews with appropriate staff and other students may be necessary to reach a final resolution of the complaint.
6. In cases of extreme conflict, it may be necessary to conduct an informal hearing regarding the complaint. If necessary, management will appoint a hearing committee consisting of one member selected by the school who is not involved in the dispute and who may also be a corporate officer, another member who may not be related to the student filing the complaint or another student in the school, and another member who may not be employed by the school or related to the school owner(s). The hearing will occur within 90 days of committee appointment. The hearing will be informal with the student presenting his/her case followed by the school's response. The hearing committee will be allowed to ask questions of all involved parties. Within 15 days of the hearing, the committee will prepare a report summarizing each witness' testimony and a recommended resolution for the dispute. School management shall consider the report and either accept, reject or modify the recommendations of the committee. Corporate management shall consider the report and either accept, reject or modify the recommendations of the committee.
7. Students must exhaust the institution's internal complaint process before submitting the complaint to the school's accrediting agency, if applicable.

Students aggrieved by actions of the school should attempt to resolve these problems with the appropriate school officials. Should this procedure fail, students may contact the Department of Commerce & Consumer Affairs at:

DCCA-PVL
